- The university has recently received a \$175,000 grant from National Science Foundation (NSF) to help develop error-resilient and highly energy-efficient computing platforms for ultra-low power applications.
- Researchers at Florida Polytechnic University are working to help close the gaps in broadband connectivity in Polk County through a \$250,000 feasibility study recently approved by the Polk County Board of County Commissioners.
- The university has seen immense growth with a significant climb in the number of freshman and out-of-state applicants for the fall 2022 semester. Freshman applications are up 30% while out-of-state applications have grown by 61%.
